## OVERVIEW OF THE PROJECT

Fast Go is a product selling website .Fast Go sells furniture , gadgets and food .

In fast go we added fast go front page where it asks for sign in or login ,after login/signin it opens home page of fast go ,where it gives information about fast go. In home page we have there options (furniture, gadgets, food) so when we click we go to buying pages of three selling websites .

So in furniture website the products are shown with descriptions and there is option to add to cart , to choose quantity and purchase, the same goes to other two website.

Features still to be added are purchase, address information feature, billing feature.

## FEATURES THAT ARE IMPLEMENTED IN YOUR PROJECT

Login feature(where it asks user name and password to login to home page)

Signin feature(where it asks email id with password to signin to home page)

Add to cart feature( it automatically calculates the amount in cart and amount can be adjust in wide range)

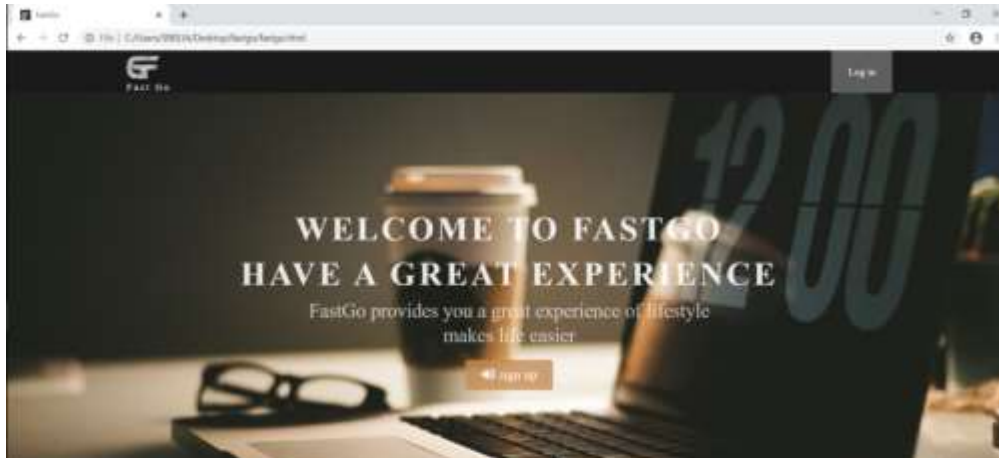

Purchase (it's a button under cart so the total cost is shown in cart and click purchase button wil purchase ur items)

Billing feature (asks about the add address details, name, email etc.)

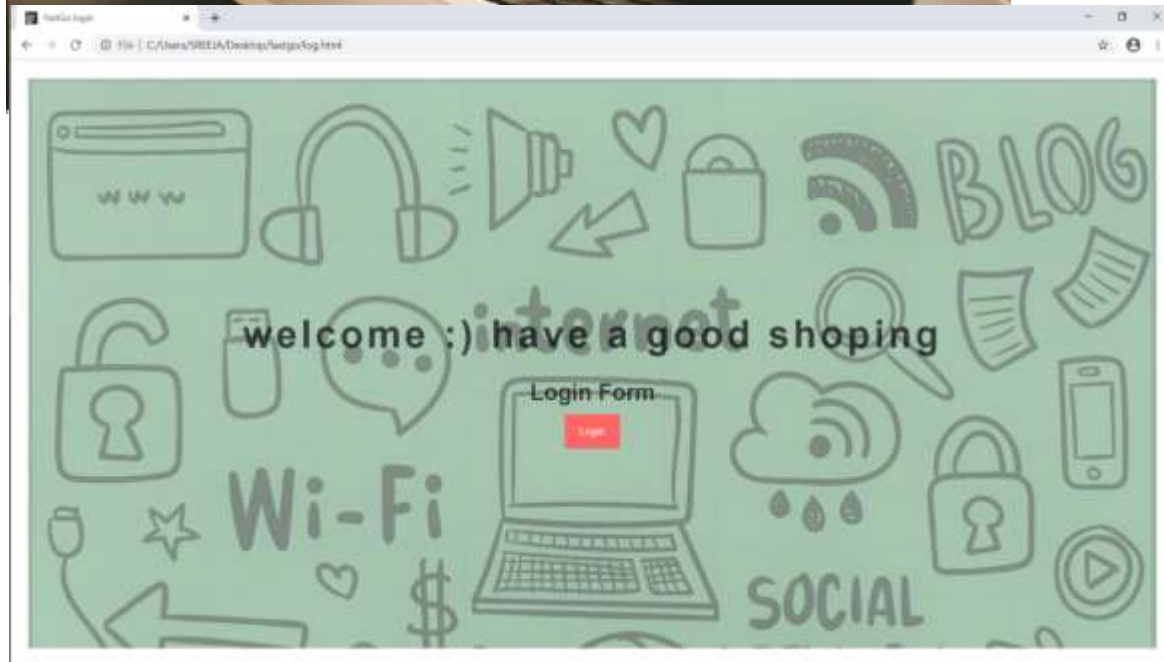

Payment feature(details about debit/credit card ,card number, expiring date and year ,cvv , etc)
